PHILOSOPHY OF GENERAL EDUCATION

Students at Southeast Arkansas College will be prepared with the general and technical education needed for successful careers or for transfer to other institutions to pursue baccalaureate degrees. The College believes that general education is an essential component of all one- and two-year programs offered at Southeast Arkansas College. It strives to emphasize the integration of academic and technical education in the experiences provided to its students in order to make both general and technical education more relevant. Specifically, the College strives to instill in its students competence in:

- * Oral, written, and interpersonal communication skills.
- * Mathematical understanding and problem-solving skills.
- * Understanding of individual differences in people and their interests.
- * Critical thinking, independent learning, and lifelong learning skills.
- * Effective group interaction.
- * Team membership skills.
- * Total quality management skills
- * Work habits necessary for the real world of work.

HISTORY OF INSTITUTION

Southeast Arkansas College was created by Act 1244 of the 78th General Assembly of the State of Arkansas, which was signed into law by the Governor on April 17, 1991.

As contained in Act 1244, "The purpose of this Act is to serve as legislative charter . . . for the establishment, organization and administration of a system of educational institutions throughout the state offering courses of instruction in technical, vocational and adult education programs, industry training and two-year college transfer programs. The system established under this Act shall provide educational programs which are easily accessible by all segments of the population to benefit from training, retraining or upgrade training for employment and which is highly responsive to individuals needing to achieve basic, general and specialized education to meet the needs of the workplace."

The Act further states that "technical college means an institution of higher education established under this Act dedicated primarily to the educational needs of the service area offering a comprehensive program including, but without limitation,

vocational, trade and technical specialty courses and programs, courses in general adult education and courses comparable in content and quality to freshman and sophomore courses which may carry transfer credit to a four-year institution in a chosen course of study."

The above act re-designated and redefined the mission of eleven (11) existing postsecondary vocational-technical schools located throughout the State to technical colleges. Similarly, state authority for these institutions was transferred from the Arkansas Board of Vocational-Technical Education to the Arkansas Board of Higher Education. The latter serves as the state coordinating agency for all public universities, community colleges and technical colleges in the State of Arkansas.

The predecessor of Southeast Arkansas College was Pines Vocational-Technical School, which began offering postsecondary vocational-technical programs as Arkansas Vocational-Technical School on September 21, 1959. With the enactment of Act 1244, on July 1, 1991, all land, buildings, equipment, and personnel associated with Pines Vocational-Technical School was transferred to Pines Technical College. In October of 1991, the Governor appointed the Charter members of the Pines Technical College Board of Trustees. The College's first president was appointed by the Board of Trustees effective December 1, 1992. In order to better reflect the College's service area, the College changed its name from Pines Technical College to Southeast Arkansas Technical College on July 1, 1996. The word "Technical" was removed from the College's name on July 8, 1998.

COLLEGE SERVICE AREA

The Arkansas Board of Higher Education has identified the following six counties in southeast Arkansas as the primary service area for Southeast Arkansas College: Jefferson, Cleveland, Desha, Drew, Grant, and Lincoln. The population within this six-county region is approximately 157,869.

ASSOCIATE OF APPLIED SCIENCE DEGREE

The Associate of Applied Science (AAS) Degree is a planned, integrated sequence of technical classroom and laboratory experiences at the postsecondary collegiate level, two years in length, designed to prepare students for a wide range of job opportunities in well-identified fields of technology.

ASSOCIATE OF APPLIED SCIENCE (AAS) TRANSFER DISCLAIMER

The Arkansas Department of Higher Education has requested all Arkansas institutions offering an A.A.S. Degree to print the following general disclaimer:

The Associate of Applied Science Degree is designed for employment purposes, and it should not be assumed that the degree or the courses in the degree could be transferred to another institution. While a few institutions have recently begun to accept some courses in A.A.S. programs, the general rule is that courses in the A.A.S. degrees are not accepted in transfer toward a bachelor's degree. Students to whom transfer is important should get assurance in writing in advance and only from the institution to which they wish to transfer.

ASSOCIATE OF ARTS DEGREE

The Associate of Arts (AA) Degree is a two-year program of study designed for students interested in transferring to a four-year college or university in pursuit of a bachelor's degree.

ASSOCIATE OF GENERAL STUDIES DEGREE

The Associate of General Studies (AGS) degree program is designed to allow flexibility for students whose needs are not met by other degree programs. Individual courses may fulfill requirements for transfer toward baccalaureate degree, direct employment, or educational enrichment. Fifteen hours must meet general education requirements. The 45 remaining hours are selected from both academic transfer and technical career course offerings.

ADVANCED TECHNICAL CERTIFICATE

The Advanced Technical Certificate (ATC) is awarded to students who successfully complete a one-year planned program of classroom and laboratory work in advanced technical courses in a technical specialty program. Admission to the program requires an associate degree or higher and approval of the faculty advisor. SEARK College offers the Advanced Certificate in one program, Biotechnology.

TECHNICAL CERTIFICATE

The Technical Certificate (TC) is awarded to individuals who successfully complete a one-year planned program of classroom and laboratory work at the collegiate level. It recognizes the completion of a specified level of competency in an occupational field.

Acceptable ACT, COMPASS, or TABE scores may waive the English and math course requirements for some one-year technical certificate programs.

CERTIFICATE OF PROFICIENCY

The Certificate of Proficiency (CP) is awarded to students who have demonstrated their mastery of skills or knowledge with specified performance standards as defined by the College. The award is granted for programs of one semester or less.
